

# EPIU: Energy Poverty Intelligence Unit

Zagreb June 30<sup>th</sup>, 2022

This project is co-financed by the European Regional Development Fund through the Urban Innovative Actions Initiative

# Energy Poverty Intelligence Unit (EPIU)

6,227,850.45 €

20% contribution 80% ERDF co-financing

What is an Urban Innovative Action?

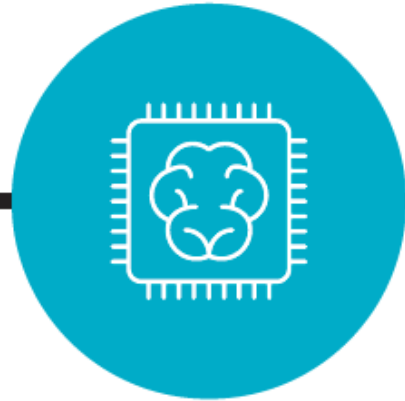

Objective: **Identify, address and fight hidden energy poverty**

Innovative approach: **From reaction to prevention using data.**

# EPIU core work packages

## ENERGY POVERTY INTELLIGENCE

Identification of hidden energy poverty cases through Artificial Intelligence and Big Data

## HEALTHY HOMES OFFICE OHS

City Council public service for the energy poverty attention.

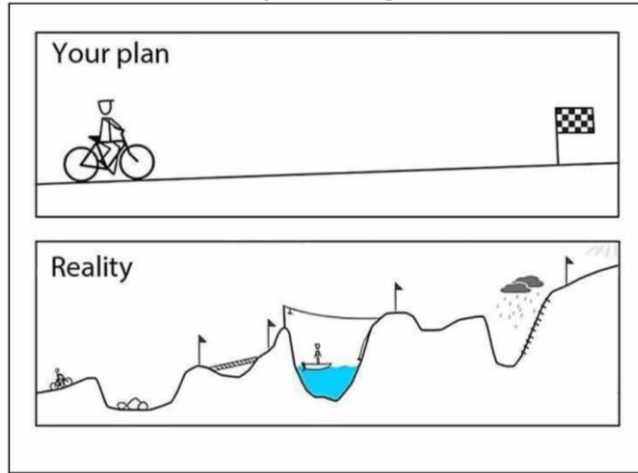

## TAILOR MADE SOLUTIONS

Application of individual and integral solutions adapted to particular needs of identified energy poverty cases

# Difficulties, obstacles and challenges

Theory vs reality

Data protection

Breaking silos

Changing context

# Outcomes

## Data gathering and protection

EPIU promotes the legal, organisational, technical and operational framework.

## OHS Healthy Homes Office

Minimum viable service in June 2021.  
Office launched in January 2022.  
Very good citizen reception.

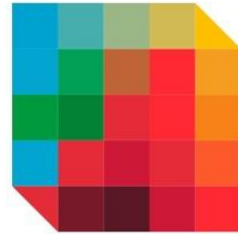

## Tailor made solutions

First call for beneficiaries.  
Candidates will be selected by the end of July.
